EDUCATION

- Chandigarh University** Mohali, India
Bachelor of Engineering(Hons.) Computer Science - Cloud Computing; CGPA: 7.4 August 2022-June 2026

SKILLS SUMMARY

- Languages:** C++, JavaScript, SQL, Bash, HTML, CSS, React
- Frameworks:** Next.js, Node.js
- Tools:** Kubernetes, Docker, GIT, MySQL, Postman, MongoDB
- Platforms:** Linux, Web, Windows, AWS, Azure
- Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

CONCEPTS

- Data Structure and Algorithms
- OOPs(Object Oriented Programming System)
- Database Management(DBMS)
- Operating Systems
- Cloud Computing
- Computer Network

PROJECTS

- Ransomware Detection System - Cloud-Based Threat Detection Platform (Machine Learning, Behavioral Analysis, Cybersecurity, Real-time Processing):** Developed open-source ransomware detection system implementing ML-based behavioral analysis for identifying malicious file encryption patterns. System analyzes file entropy, modification rates, extension changes, and access patterns to achieve 92.5% detection accuracy with 500ms response time. Integrated AWS cloud services for scalable deployment and automated alert notifications, reducing average threat containment time by 40%. Tech: Node.js, Express, Socket.IO, Python, Scikit-learn, AWS (Lambda, S3, SNS), WebSocket, REST API, HTML5/CSS3 (January '26)
- Helping Hands - Full-Stack Donation Platform (Web Development, Payment Integration, Social Impact):** A comprehensive platform connecting donors with people in need through transparent charitable giving. Features secure authentication, real-time donation tracking, request management, and integrated payment processing for seamless transactions. Tech: Node.js, Express.js, MongoDB, Mongoose, Razorpay, JavaScript, HTML5, CSS3, JWT (December '24)
- AI-Powered Finance Assistant (Machine Learning, Full-Stack Development, Financial Analytics):** Intelligent finance management platform automating budgeting, expense tracking, and investment analysis with personalized recommendations. Features ML-driven cash flow prediction, risk assessment, and real-time financial insights dashboard. Reduced manual financial management time by 20% for users. Tech: Next.js, Drizzle ORM, Neon DB, Clerk Auth, Machine Learning, TensorFlow/PyTorch, Cloud Deployment (May '24)

CERTIFICATIONS

- DevOps Engineer:** oneroadmap
- AI Engineer:** oneroadmap
- Full Stack Developer:** oneroadmap
- SEBI - Investor Certification:** NISM
- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional:** Oracle
- Cloud Computing:** Coursera
- Introduction to Data Science in Python:** Coursera

VOLUNTEER EXPERIENCE

- Tech Lead at Cognizance IIT'R** Roorkee, India
Defined the technical roadmap, guided implementation, and ensured timely, integrated delivery. Feb 2023
- AI/ML Lead at University level hackathon** Mohali, India
Designed and deployed core AI models and data pipelines for the solution. Jan 2024
